

Pre-Sales Intern → Pre-Sales Engg (Teleco&Network Security)

(Internship to Job Opportunity)

Company: Nebero Systems / Nexbro *(edit brand name)*

Location: Mohali / Chandigarh *(On-site preferred)*

Internship Duration: 6 Months

Role Type: Internship with **confirmed conversion path to full-time role**

□ Role Overview

We are building **Made-in-India telecom and network security products**, including **IP-PBX systems, Firewall/UTM appliances, VPN & enterprise communication solutions**.

This role is designed as a **learning-intensive internship that converts into a full-time Pre-Sales Executive position** based on performance, capability, ownership, and attitude.

If you enjoy **technology, customer interaction, and public-facing learning opportunities**, this role offers a strong long-term career path.

□ Internship → Job Journey (Important)

□ Phase 1: Learning & Observation (2 months - Month 1–2)

- **Stipend:** ✗ *No stipend*
 - Focus on:
 - Product understanding (IP-PBX, Firewall, networking basics)
 - Shadowing pre-sales calls, demos, and internal discussions
 - Learning proposal structure, solution design, and documentation
 - Evaluation focuses on **learning speed, seriousness, and commitment**
-

□ Phase 2: Paid Internship (4 months - Month 3–6)

- **Stipend:** ✓ **₹15,000 per month**
 - Responsibilities include:
 - Handling parts of customer conversations
 - Preparing draft proposals, BOQs & comparison sheets
 - Assisting in demos, PoCs, webinars, and conferences
 - Continuous performance evaluation
-

□ **Phase 3: Full-Time Role Conversion (7th month onwards)**

- **CTC Offered:** □ ₹4 LPA – ₹6 LPA
 - Based on:
 - Technical understanding & clarity
 - Communication and customer confidence
 - Ownership of tasks & outcomes
 - Contribution to leads, demos, and conversions
-

□ **Key Responsibilities**

□ **1) Customer Requirement Understanding**

- Interact with customers via calls, emails, WhatsApp, and meetings
 - Understand business & technical requirements for:
 - IP-PBX (office telephony, call centers, SIP)
 - Firewall/UTM (security, VPN, bandwidth, compliance)
 - Learn to ask structured, relevant discovery questions
-

□ **2) Solution Design & Pre-Sales Support**

- Assist in designing customer-specific solutions:
 - Product selection & sizing
 - Scalability planning
 - High-level network topology understanding
 - Support product demos & proof-of-concepts
-

□ **3) Proposal, BOQ & Documentation**

- Prepare and maintain:
 - Techno-commercial proposals
 - BOQs, pricing sheets, and comparison tables
 - Customer-facing and internal documentation
 - Maintain version control and proposal templates
-

□ 4) Webinars, Online Events & Conferences Support

- Assist in planning and execution of:
 - Online product webinars
 - Virtual conferences and industry events
 - Responsibilities include:
 - Preparing presentation material
 - Assisting during live sessions (Q&A, demo flow, attendee coordination)
 - Post-event follow-ups and lead qualification
 - Learn how **products are positioned publicly** to customers and partners
-

□ 5) Channel & Partner Support

- Support system integrators and channel partners
 - Help explain:
 - Product positioning
 - Differentiation vs competitors
 - Suitable customer profiles
-

□ 6) Sales Enablement & Feedback Loop

- Assist in creating:
 - Pitch decks, one-pagers, FAQs
 - Collect customer and partner feedback
 - Share market insights with product and engineering teams
-

□ Eligibility & Background

Preferred (not mandatory):

- B.Tech / BE (ECE / Telecom / IT / CSE)
- BCA / MCA / BSc IT
- MBA (Sales/Marketing) with technical inclination

Final-year students & fresh graduates encouraged to apply
